Attention Automobile Owners

Greatest Aid to Modern Motoring--Tire Troubles Eliminated at Small Cost

In this age of marvelous achievements we observe realities that were visionary dreams a few days before. And when we see we are amazed. A few years time has brought the automobile to perfection, but some features of this remarkable carrier needs improvement; the greatest of which is the tires. Brains of smart men have been working overtime to find a non-puncturable substance that would take the place of air--all of these have fallen flat---but the REAL REMEDY has been invented and you can still RIDE ON AIR without punctures or additional weight, and GET LONGER SERVICE FROM TIRES.

"RIDE ON AIR AND LAUGH AT PUNCTURES"

WULCORINE

PREVENTS SEVENTY-FIVE PER CENT OF BLOW-OUTS

A Liquid Fiber Compound that Stops Punctures, Rimcuts or Pinches

A small portion of this material is injected into the tube where it remains in its natural state ready for its quick and effective work whenever any foreign substance penetrates the tire. It not only stops the leak, but vulcanizes the infected places in both tube and casing, thereby preventing sand or grit to enter. It will heal a hole as large as a twenty-penny nail. 500 nails can be driven into one tire without injury or loss of air. It doubles the life of tires by keeping the proper air pressure. It preserves the rubber. Chemically it is an admirable preservative. It will not adhere the tube to the casing. Does not harden and can be used many times. It adds to perceptible weight. The cost is small and a wise investment --- a pleasure giver, a money saver. Testimonial letters from users throughout the country --- every one a happy motorist since using VULCORINE.

FULLY GUARANTEED FOR TWELVE MONTHS

Department of Chemistry EDGAR EVERHARDT, A. M., Ph. D.,

Professor in Charge.
ATLANTA COLLEGE OF PHYSICIANS AND SURGEONS,

February 27, 1913. Mr. R. L. Walker, Mgr. Vulcorine Co., city: I have made an examination of the sample of VULCORINE which you handed to me for analysis, and have found that it contains no material that will give off an explosive gas or compound, and that it contains no acid or other material harmful to rubber. In fact, the presence of this material tends to keep rubber soft and pliable. Yours truly,

EDGAR EVERHART, Chemist.

DEMONSTRATIONS DAILY

(EXCEPT SUNDAY)

For the benefit of Automobile owners generally, a public demonstration will be given where can be seen nail after nail driven into a pneumatic tire containing usual air pressure, causing no punctures or loss of air.

HITS IN EIGHTH

Grant Wild and Retires in Fifth Inning.

[Special to The Times-Disputch.] Charlottesville, Va., April 3 .- Vir ginia won from Cornell to-day, much after the fashion of last spring, two hits in the eighth inning, followed by an error, allowing the Southerners to score two runs and nose out Cornell 6 to 5. The Ithacans out-hit Virginia two to one, and played snappy ball in the field. Grant was wild from the start, and retired after the fifth, when a double. James went on the mount and blanked the visitors in the re-maining innings. Ediund, who twirl

second inning, and Virginia was unable to score again until the eighth. Fitchett laced a single to centre, took second on a fielder's choice and tallied Wirginia Noses Out Cornell.

Grant Wild and Retires

Second on a fleider's choice and tallied on Stickley's drive to felt field.

Green, who had previously secured a triple, double and single, sent a high fly to short centre. Taber, the football star, got under the ball, but dropped it and Stickley crossed the plate with what proved to be the winning rule.

some up and whaled the Cubs 13 to 4 in seven and a half innings to-day. Most of the blame for this humiliating defeat may be loaded on the shoulders of B. Powell, formerly of the Blues. bill was shy on control. He gave eight passes, and the Blues stacked up seven the stacked up sev tallies, with the aid of three hits among. The passes. Ritchie relieved him, and the Blues bumped him for a mess of ten hits and six runs. The Cubs were allowed seven hits from Ragan and Schlei and were glad to get them.

Edlund, 6. Hits—Off Grant, 10, in niver innings; off James, 4 in four innings. Struck out—By Grant, 3; by James, 3; by Edlund, 5. Passed ball—Green. Balks—James, Edlund, 2. Time of game—2:20. Umpires—Chaewning and Elliott.

Last Meeting of Amateur Commission Before Season Opens

The final meeting of the Amateur Baseball Commission before the opening of the season will be held to-morrow night at the National State and City Bank. Since many questions of utmost importance are to be considered, and finally disposed of, President Julien H. Hill is anxious that every member be in his seat. The meeting is called for 8:15 o'clock, and if members will attend promptly matters will be considerably expedited. At this meeting arrangements for the opening will be made.

NEW YORKS BACK FROM OCEAN TRIP

[Special to The Times-Dispatch.] New York, April 3 .- Frank Chance and the New Yorks, as the baseball team representing this city in the American League is now called, arrived to-day on the steamer Arcadian. In the midst of the excitement attend-In the midst of the excitement attendant upon the reception of the players, one question was pre-eminent. That was, "Can Hal Chase play second base?" No definite answer was obtained, but Manager Chance said: "The public will find out what kind of a team I have in a few days."

The players all looked to be in fine The players all looked to be in fine The Madison School defeated the Stone-wall Jackson team in the first game of the Grammar School Lesgue by the score of 5 to 7. The game was played on St. Andrew's diamond, and was a close battle all the way, both sets of youngsters showing to marked advantage.

fettle as they left the ship. Chance during the five innings he pitched but said that the eighteen stands with Washington, Boston and Philadelphia, following the opening of the season, would show what the club could do, and that as "actions speak louder than words, I will let the result of the games be my prediction."
